

## Environmental Policy Statement

### Howard Fire Inspections Ltd

Howard Fire Inspections Ltd recognises its responsibility to minimise the environmental impact of its operations and promote sustainable business practices.

To fulfil this commitment, we will:

- Comply with all applicable environmental legislation and regulatory requirements.
- Reduce waste and improve energy efficiency in our operations.
- Prevent pollution and use resources responsibly.
- Promote environmental awareness among staff.
- Through our inspection of notional doors, we are contributing to the reduction of timber use by saving existing doors in their continued role, rather than having to replace with new door sets.
- We endeavour to organise our visits in blocks to reduce the environmental impact of our travel by being in one location wherever possible.
- The company Suzuki vehicle specifically adhere to Euro6 for emissions requirements for clean air.
- The company Land Rover vehicle is 30 years old and maintained to keep it on the road rather than the environmental impacts of producing a new vehicle to replace it.

We are dedicated to protecting the environment for current and future generations.
